

Deckhatches and Portlights

Features

- Unique deck water groove helps keep water out
- Low profile (40mm frame) and new Flushline (24mm frame) super slim design
- Snag free design. No catches, lips, knobs, knuckles or sharp corners to snag sails or jackets
- Adjustable friction hinges eliminate the need for stays and allow lid opening at any angle up to 180°
- Thief proof hinges and interior lid lock ensure security. Locked ventilation position possible
- Widest flat sealing surface ensures water tightness
- Standard anodized silver finish or a choice of 164 powder coat colours

Features

- Watertight design ensures 100% waterproof hull fitting.
- Easy Installation. The unique clamp system eliminates hole drilling and ensures a perfect fit for wall thicknesses 4mm to 23mm.
- Friction hinge allows for 30° 90° or 140° fixed opening positions.
- Non drip frame design. Smooth angled surfaces ensure water will not drip into cabins when portlights are opened
- New Flushline designs are also available
